

Agreement for Doctoral Program in Advanced Manufacturing System

Student _____

participates in “Research and Development Elite Cultivation Through University–Industry Cooperation Project” and receives the PhD admission of Advanced Manufacturing system.

- I agree with MOE regulations below.
- I disagree with MOE regulations below and will not receive MOE scholarship this semester.

1. Students who have a full-time job or those without a full-time job whose average monthly salary (or salary received in any one month) exceeds the minimum wage of the year in question shall not receive a scholarship and/or financial aid from this school.

2. For students who meet the aforementioned description but who decide to conceal said fact in order to receive a scholarship and/or financial aid from this school, the school will recover the scholarship and/or financial aid offered to the students and hold the students responsible for related matters.

3. The school shall immediately cease offering a scholarship and/or financial aid to students who suspend schooling, drop out, withdraw from this project because they fail to pass academic performance evaluations or company evaluations, have a full-time job during the academic year (including the winter and summer semesters), or meet the salary standard described in Item 1, Subparagraph 2. Said students cannot apply for a scholarship and/or financial aid when they return to school or if they participate in another project.

4. For students who voluntarily apply to withdraw from this project, the school shall cease offering them a scholarship and/or financial aid and recover half of the scholarship and financial aid already given to said students.
